Native scalar displacement | no spatial interpolation or new simulation
Native u[20] | t = 6 simulation T
Native u[50] | t = 15 simulation T
Native u[90] | t = 27 simulation T
Native u[150] | t = 45 simulation T
Source
Receiver nodes
Displacement u (simulation units)
Position x (simulation L)
Applied source increments at node 17
Displacement increment (simulation units)
Post-update time (simulation T)
Saved 1D history: position × time
State time (simulation T)
